

UNIVERSITY OF MIAMI

COLLEGE of ENGINEERING

McArthur Engineering Building
1251 Memorial Drive, Room 244
Coral Gables FL 33146-0620
coe.miami.edu

The Capstone Program at the University of Miami (UM) College of Engineering (CoE) connects students and companies to tackle real-world multidisciplinary problems.

Capstone projects span the areas of sustainability and resiliency, healthcare, aerospace, robotics, environmental monitoring and cleanup, emergency response, renewable energy, human machine interface, supply chain management, automated transportation and much more!

Capstone industrial partners retain all ownership rights and commercial licenses to any intellectual property. They have access to cutting-edge laboratory and prototyping facilities, as well as talented research faculty – all for a modest fee that covers project expenses and can be counted as a tax-deductible contribution.

For more information, please call Ann Helmers, CoE director of career services, at (305) 284-2058 or email ahelmerts@miami.edu.
